Scaled Scores

What sort of results are reported?

Once marked, the tests will be given the following scores:

- A raw score (the total number of marks achieved for each paper);
- A scaled score (which is explained below);
- A judgement of whether the National Standard has been met.

After marking each test, the external markers will convert each raw score into a scaled score to show whether each child is working below, at or above the national standard.

When the scaled score is given, it is given in a range from 80 to 120.

A scaled score of 100 or more is meeting the national standard.

There are no separate tests for higher achieving pupils; however, **a scaled score close to 120 would show that a child is working above the national standard.**

How Can You Help?

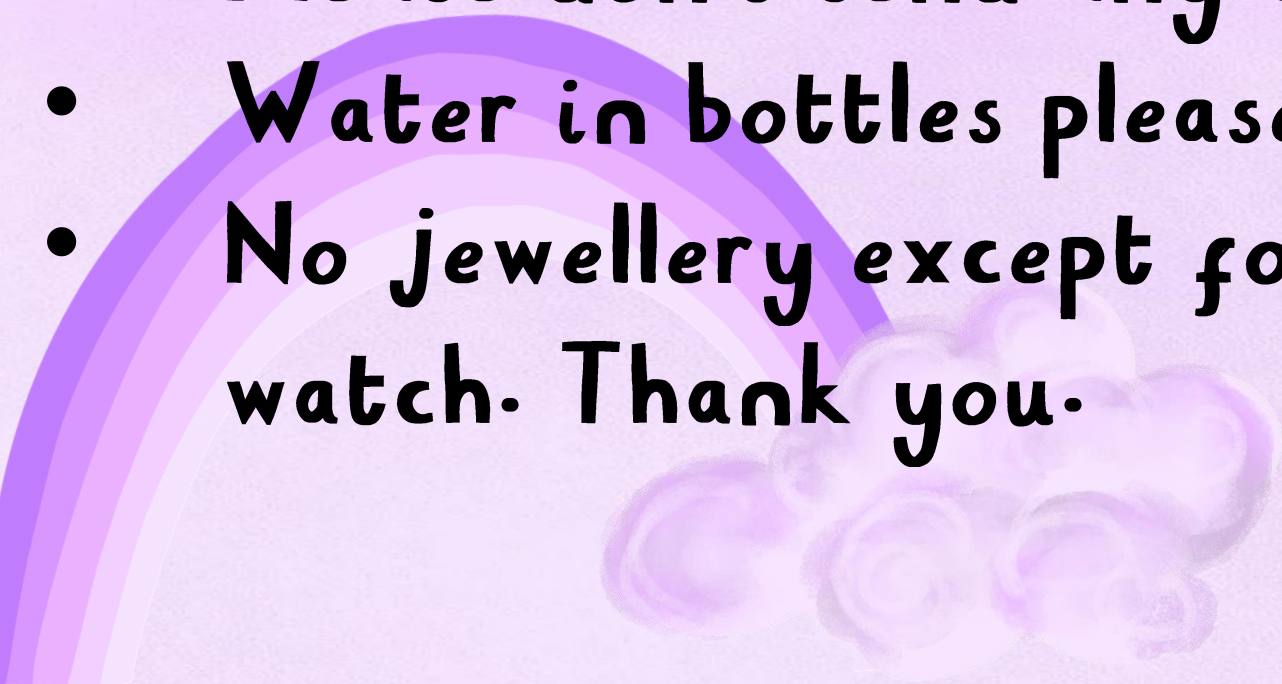

- Quiet, calm space for homework
- Encourage reading together, as a family or independently
- Support your child with learning their spellings each week and revisit them regularly
- Support your child with completing their homework each week
- Practise their times tables with them
- Encourage a good bed time routine to ensure they are well rested and ready for the day ahead.
